Society is full of corruption and hatred. Among the many atrocities overlooked, political abuse of psychiatry is rampant much like ableism and sanism. The rationale for misdiagnosis is "insurance companies will have to be told they're paying for something", and the insurance fraud is ignored by authorities. Anybody can be misdiagnosed so drugs get pushed, the vast majority of them are never violent, people labeled "mentally ill" are more likely to be victims of violence than perpetrators, and the torture inflicted upon them is encouraged by the authorities and the press.

Many psychiatrists told me I would "never amount to anything" because they're ashamed of themselves, so they project their insecurities upon others, and they ruin lives by misdiagnosing whomever they can; as expected from bullies.

I finally tapered off of the pharmaceuticals that kept making me sicker and sicker. The pushers are unwilling to lose even one customer. Every time they refused to taper the drugs, I was yet again traumatized by involuntary admission due to withdrawal symptoms. Post Traumatic Stress Disorder was misdiagnosed because psychiatry caused most of the trauma.

I finally was diagnosed with PTSD. I acquired my medicinal herb license in 2017. This was a major accomplishment. The pushers don't have any legal justification to accuse me of "abusing" said herb when it's prescribed. It's medical necessity. Dr. John A. Nazarian vowed revenge. I know the first medical necessity prevents paranoia because it's relaxing.

Years after legalization of medicinal cannabis in 2012, nobody removed unqualified doctors and others who think the first medical necessity somehow "causes" every problem that exists and then some.

The drug pushers were wrong, all of their claims are backwards. The first medical necessity motivates its users, improves concentration, and prevents paranoia, anxiety, and depression because it's relaxing; and saves lives.

Medicinal cannabis clears my head so I focus. Dr. Jeffrey Shelton claimed otherwise while pushing drugs to impair concentration and cause depression and anxiety. My anti-authoritarianism is learned from experience, and nobody has proven me wrong. Regardless of the suffix -ism that I'm not keen on, anarcho-primitivism is the answer. The appeal to hypocrisy is a logical fallacy. Labeling me a "hypocrite" doesn't refute my points. My own use of technology to disseminate a critique of technology is easily explained as better than doing nothing to avoid being accused of "hypocrisy".

My own experience as a target of political abuse of psychiatry is an example to illustrate such points. The authorities ignore all laws about protecting "rights" and refuse to investigate.

Dr. Micheal Edward Balkunas of New Britain General Hospital caused damage that persisted since 2005.

Before 2005, nobody denied that I was a "gifted and talented" savant on the highest functioning end of the autism spectrum. In 2005, Dr. Micheal Balkunas falsified medical records. From 2005 to 2015, I was falsely accused of "paranoia, delusions, psychotic tendencies, lack of insight, and polysubstance abuse" because that's how pharmaceuticals are pushed.

Community Mental Health Affiliates convinced a Probate Judge to appoint a Conservator of Person and Estate, Attorney Katrina Camera. This meant that I got trapped in the wrong area because I couldn't move out without approval. I was discharged from CMHA to Continuum of Care in 2015.

Being a conserved person means I'm unfree.

When I was harassed and stalked by Mike Inigo, the staff at my house stayed in the office to not witness him throw out my belongings, and I wasn't reimbursed. They presumed they could get an easy paycheck. The bully pulled down his pants and indecently exposed himself and got away with it. He was eventually removed from the house.

Survivor's guilt continues and it's not easy to sleep. Psychiatric APRN Susanne Wargo pushes Xanax without concern about brain damage or deadly withdrawal symptoms. I had a seizure when I was misplaced the pills and the junky staff at Bristol Hospital claimed the seizure's cause was "undetermined" and they kept me contained for being forced to take Xanax. Susanne Wargo thinks the first medical necessity has an "underworld"!

As of March 2020, since the conservator and the Probate Judge won't approve of housing without "case management", there's been talk of sending me back to CMHA; and I'm alarmed.

I was forcibly drugged in school, sent to detention for being forced to sleep in class, and I still graduated. Before Dr. Richard J. Miller forcibly drugged me, I excelled in school. Since I was easily targeted by bullies, the Board of Education sent me to the Wheeler Clinic in 5th grade instead of helping me.

The junky staff at Bristol Health, formerly Bristol Hospital, are in it for an easy fix. They say, "do as we say, not as we do" while they nod off and talk with their eyes closed, pretending they're infested with opiophobia to keep the drugs for themselves. Dr. Nachiyyappan Manoharan threatened forced injections of Zyprexa.

The authorities deny, allow, and encourage all of these violations. When comparing what's enforced to what's unenforced, it's noticeably terrible. This verifies my anti-authoritarianism.

I lost decades of my life and they can't be given back. Closure isn't too much to ask for.

Classism and racism caused the phony "drug war" targeting indigent communities. This isn't a specifically American problem, authentic medical necessity had already been banned throughout much of Europe before the United States.

Harry J. Anslinger fooled lawmakers who had no idea they criminalized a medicinal herb that saved their lives. By using an obscure term spelled with a J instead of an H, Anslinger made the first medical necessity seem foreign. He targeted immigrants and jazz and swing musicians by claiming they were "insane on marijuana that makes them think they're as good as white men" despite that people of all walks of life rely on the first medical necessity.

The poor are targeted and considered a threat to the wealthy, hence the phony "war on drugs" is a war on the poor.

My most widely disseminated song is Ingenuity, a psychedelic conscious hip hop song :

<https://youtu.be/GoLjmY48C84>

The night after I attended my first Temezcal, a Mexican sweatlodge, my song Ingenuity finally reached 1000 views within about 7 months.

I was invited by ____.

Intuition definitely exists. Not being 100 percent accurate doesn't mean not having the ability. The skeptic extremists offer rewards to prove them wrong, then boast that they never intended to deliver such an award. They're charlatans and proud of it. Blind rejection isn't any more plausible than blind acceptance. The tests are rigged! Snobs ask "how could a psychic have bad luck?" as if it were that simple. Yeah, right!

I saw the 2002 tsunami of South East Asia in a dream, but only a vague reference. I interpreted it during and after its fulfillment, not before

Astronomy and astrology are interchangeable. Nobody claimed otherwise until recently. The original science is incorrectly called "pseudoscience" and even "antiscience", an insult to everyone's ancestors.

I have an app to train for Extra Sensory Perception, and I'm on the global leaderboard. Any score of 11 or higher can be submitted. I've gotten 14 out of 25 correct. Anything more than 5 correct can't be attributed to chance alone.

I frequently see certain numbers on clocks. 11:11, 1:11, 2:22, 3:33, 4:44, 5:55. This isn't coincidental. I see them more frequently than not. This has especially been the case since the Age of Aquarius dawned in the spring of 2017.

Chapter

The populace is systematically poisoned. That's how pharmaceutical companies sell their drugs to sell more drugs. Vaccines cause customers. The vaccinated vast majority gets sicker and sicker and sicker. Vaccines can cause seizures, encephalitis, and worse.

Death is listed as a "side effect" of vaccines. When babies die after vaccination, the euphemism "Sudden Infant Death Syndrome" is used as if the cause of death were unknown. The pro-vaccine propagandists say they'd "rather be autistic than dead" as if they've never heard of other possibilities besides autism and death.

The warning label on toothpaste says to call a Poison Control Center if its swallowed, yet the populace doesn't question why the same poison is in the water. They're indoctrinated and domesticated. Sodium flouride has damaged their brains. Pro-vaccine propagandists don't know anybody with autism, they think they're experts on my condition just because they watch TV and movies.

Deaths from viruses already declined by 90 percent before vaccines. These deaths were declining for many decades. Better sanitation, hygiene and nutrition helped. There's also treatment for these infections. The symptoms could be reduced. This wasn't always widely understood, hence the difference between decades ago and centuries ago.

Anybody who already survived measles won't catch the same virus again due to lifelong immunity. Measles is a temporary infection that's rarely fatal. Surviving ailments is a rite of passage during childhood.

The symptoms of mercury poisoning are also the symptoms of autism. When vaccination increases, autism increases.

Infant mortality increases along with vaccination. The US has the highest infant mortality rate because it has the most vaccines.

The media suddely stopped talking about measles because now the fearmongering is over coronavirus. There's new mass hysteria, just like that.

<https://childhealthsafety.wordpress.com/graphs/>

I'm expected to fend for myself because I'm in the minority on the highest functioning end of the autism spectrum. I don't appreciate the media diminishing my plight.

Lyrics to Call for Liberation :

So many protest.
Everyone is oppressed.
Nobody has freedom at anyone else's expense.
I must insist that authority should cease to exist.
I'm an anarcho-primitivist.
We must resist Empire and its many clients.
They're all tyrants
My Zerzan-esque verses will burn down churches to murder (neo)conservatives for their disservice.
They deserve it.
Proudhon correctly said, Property is Theft, and influenced Bakunin.
We need more than a revolution.
Progress is a myth.
Technology inflicts pollution upon Earth as persecution, hence what Edward Abbey said was the industrial way of death.
Civilization is self-destructive and meant to oppress.
When ignoring the facts, some have resorted to a personal attack.
The accusation of hypocrisy is obviously an ad hominem (among the more common and most easily refutable and futile of any logical fallacy) to blame us for using technology while in civilization's clutches, as if blaming a cripple for using crutches.
Anarcho-primitivism is what I believe in. There can't be freedom where there is authority, hierarchy, and other crimes of the civilized.
I support nomadic forager tribes.

Authority and hierarchy have divided us, and lied to us.
We had been told that our rights were recognized and wouldn't be denied.
Empire has tried to deprive us of our skills that we needed to survive.
The low lives who hide behind a badge fabricate crimes to meet their quotas.
They patrol us and enforce their war upon us.
Empire and its apartheid has to end, and we need not let it slide ever again.
We can easily resist them, and we will win.
We outnumber and outwit the oppressors.
We can do much more than merely demonstrate against them.
They intend to arrest anyone who protests them, but we don't have to let them.

If we had all been killed, then there'd be nobody to oppress when there's none of us left.

I told them I won't tolerate the laws and hate they have caused for so many years.

I made myself clear

They didn't hear because they had lard in their ears.

Yet we are precisely what their Empire should fear.

Much like the Irish volunteers, we're undefeated.

Those who profit from apartheid have repeated their lies, but that doesn't make them true.

We must liberate the Earth, as that's what we are obligated to do.

The lyrics to Defy Dystopia

civilized society is entirely for shills
and psychiatry kills
by prescribing pills
to cause depression and anxiety, thus
depriving its targets of survival skills
(x2)

the populace is systematically poisoned by a pharmaceutical industry that brutally despises liberty
as the poison pushers avoid all liability,
barely even discreetly,
quarantines are caused by corporate greed to sell vaccines
after sanitation had already decreased deaths from infectious diseases
by 90 percent before the vaccines shed the germs to spread,
hence the fear mongering is measly,
the vaccinated majority are brutally duped
given shots like they forgot surviving chickenpox,
poison pushers walk all over us until we make them run away from us thus before us because they exploit us.
They contaminate the water and pollute the air
and hate us because we dare to care.

Newscasters who spew disaster don't inform those who veiw that a fashionable discrimination,
mentalism or sanism, a variation of ableism or disabelism
is endorsed as preferable
while everybody who's stigmatized and ostracized
is considered expendable
and detestable

for being traumatized and almost universally despised
many are forcibly drugged and electroshocked to be vegetables
it's disturbing to describe
such reprehensible
atrocities enforced by
Probate Judges
who hold their grudges
while the reporters don't want to realize they stigmatize those who would probably
save their lives.
Fear sells. I'm not buying.
Measles isn't a death sentence.
Censorship of a documentary
Is barely even trying.
The fear mongering is blatant denying and lying.
Measles isn't bubonic plague.
Such feeble claims aren't even as vague rather than opposite the truth.
The populace is too afraid to comprehend proof.
Distress when the press will degrade
a minority who couldn't weaken any herd immunity,
That's inherently absurd, brutally undeterred by scrutiny.
The vaccinated majority is told lie after lie.
The herd immunity rationale doesn't apply
When pretending viruses could be spread by those who haven't caught them or that
new strains are to blame.
That's an inherently bogus claim.
Forced vaccination with bans and badges are inhumane.
Mandatory vaccination is oppressive because it's coercive, thus indefensible.
There could be internment or worse for those who don't get vaccinated on schedule.
The autists are stigmatized by lies and portrayed as expendable.
Autism doesn't cause rampages,
The savant syndrome misdiagnosed while geniuses are locked in cages.
The reprehensible sadistic staff will Drug Shock Misdiagnose
To push their drugs to those who thought they were immunized.
Disease is exacerbated.
Only a minority are unvaccinated.
The harm caused by measles is exaggerated.
The idea of a herd immunity weakened by a minority is outrageous,
Like bogus bans and badges on those who didn't catch anything and therefore, are
apparently not contagious.
Doped up staff are sociopaths who laugh as they steal opiates from the
detoxification wards they're working at, forcing prisoners into rehabilitation.
This invasion is futile, it's desperation when the pushers resort to slander phrenia.
Therapy can't be forced.
Pushers label anybody

'mentally ill' without evidence
then pretend they have grounds to torture
while claiming to 'medicate'
those whom they denigrate to decimate
it's never therapeutic when against their will
For freedom from psychiatry,
force and fraud,
I easily see through a façade

civilized society is entirely for shills
and psychiatry kills
by prescribing pills
to cause depression and anxiety, thus
depriving its targets of survival skills

#Psychiatry is reprehensible.

Years after #medicinal herb was relegalized in #Connecticut, the state STILL won't go after irrational psychiatrists who #torture people over medical necessity. I'm not afraid of naming names online. The same doctors who torture people by forcing drugs upon them also say, "don't do drugs".

Why not make an example of them?

Here's a list of drug pushing bigots who forcibly drug their targets and say "don't do drugs":

Micheal Edward Balkunas

Christopher L. Yergen

Jeffrey T. Shelton

Enrique J. Tello

Susanne Wargo

John A. Nazarian

Richard J. Miller

Wayne Cotton

NOBODY deserves torture.

Every time the drug pushers refuse to taper the drugs, their targets are forced into hospitals over withdrawal symptoms, thus Post Traumatic Stress Disorder is exacerbated. Not everybody can afford a medicinal cannabis license. PTSD is usually misdiagnosed as "bipolar disorder, schizo affective disorder, and schizophrenia"; the go to misdiagnosis.

The burden of proof is on the doctors, and Probate Judges are unlikely to request evidence since judges are immune to lawsuits.

Medicinal cannabis still prevents paranoia because it's still relaxing, regardless of the placebo effect. The myth of "amotivational syndrome" is backwards, the medical necessity motivates its users. The myth of "impaired concentration" is also backwards.

The CVH abuse scandal was caught on tape. One nutcase is going to jail for what they ALL do

The only lunatics are the staff, not the prisoners. The crazy staff will label anybody else "mentally ill" to shift the blame away from themselves.

Medical necessity isn't "abuse", nobody went "insane" from a relaxing medicinal herb, and repeating a lie won't make it true.

Still no relief. I've been trapped in the wrong area since October 2017. No break from stress. My money gets wasted on rent for solitary confinement. Nobody told me what I'm falsely accused of. I was forced to sign the lease and nobody warned me I would never be allowed to relax. Due to a Probate Judge illegally appointing a Conservator of Person and Estate, a stranger forces me to suffer anxiety attacks and wastes my money on rent. My own "family" refuses to help, they say "look for a place and move" AFTER being told there's a Conservator of Person and Estate! Still not one moment of peace.

Zen Bar has got to go. The bigots deserve much worse than losing customers. Mistreating musicians was bad for business already, and now these snobs assaulted a "disabled" person. I was already leaving BEFORE being PUSHED. That ought to be the last straw. Their rationale was "people were complaining" as if those people couldn't just LOOK THE OTHER WAY. I'd be much sicker without it. Still not allowed a better setting. Not in many years. Stopped writing because the songs never happen so it's useless.

If I could choose where to reside, I would've done so. I'm FORCED to reside in the WRONG AREA because I'm a POLITICAL PRISONER. Every weekend, I reach out for relief without getting any reply because nobody comprehends that a Conservator of Person and Estate FORCES me to rot in an UNBEARABLE area, subjected to constant anxiety attacks. you sending me the healing kept me alive this (whole) time. Thanks. I dunno about attending events by myself it's too risky. With my defficiency of air, I should socialize more. It doesn't happen when I only have a fee days a time in Bristol. I'm surrounded by jerks and I've been without a break this whole time. This years' winter blues is worse than usual and I don't react well to Valentine's Day. I feel like I'm about to die from stress. I don't even have an outlet to vent when in a writers' block. It's unbearable that I can't even sublimate. Being trapped here will eventually drive me off the deep end. To my credit, I handled this well at first. I'd gather the actual reason almost nobody cares about me is because I'm poor. Authorities don't care that "discrimination is against the law", it's unenforced. Employers refuse to hire me. SSI is my only \$ and nobody's impressed. I literally have very few friends in real life. When I can smoke herb again, I'd rather share it. It's not the same smoking by myself. This setting also is bogus. I've got worse than the usual fear of aging, I wasn't allowed to enjoy my youth, I was locked in cages for most of my life. I'm trying to get some relief while I still can and it hasn't worked yet. Not too late, just close to it. If I could enjoy anything even once more, that'd be better than nothing.

I don't react well to Valentine's Day. Not cool to "rub it in" that not everybody has anything to celebrate. If I could skip it and go directly to St. Patrick's Day, I probably would.

We artists search for that something hidden
without fulfillment

We're inadvertantly more distant

despite being brilliant,

we're not even quite equivalent

to what we seek and reach for,

There's impediment after impediment,

in a manner that's belligerent

Wednesday - Thursday

My case manager, Matt Quinn, is unqualified, no experience, and the rationale is that he "had to start somewhere", and he's the only case manager in this house! When I voice my concerns, I get antagonized by being ignored by the phony "case manager" who calls the Mobile Crisis Team instead of managing my case, and he still gets his easy paycheck.

I'm still trapped in the wrong area. This problem would've been solved if enough people had a conscience. I needed a break from the stress so I could recover. Instead, I was harassed in my house because nobody had the decency to bring me to an event so I wouldn't either remain isolated or be easily targeted for attending an event alone. That's my \$ paying rent for this shithole and it's not easy to plan for

better housing when still in shock from trauma. My mood is slightly improving due to the weather, but I'm still infuriated by the lack of compassion. I've been betrayed.

I'm still waiting to hear after voicing my concerns about violations by a 3rd shifter, Baja, who causes friction.

Baja sleeps on the job, then gives me a hard time for knocking on the door to the office because she had to wake up. Her inappropriate remarks about my family were the last straw. It's alarming enough that she gets paid to sleep. Baja doesn't me or my family. When my "mother" denied me transportation to Bristol, Baja said, "I don't blame her", so I'll had to report that.

called out Dr. Jeffrey Shelton on Google reviews and elsewhere :

Medicinal cannabis saved my life. When Dr. Shelton prescribed pharmaceuticals that caused depression, I smoked herb to improve my mood. When he prescribed pharmaceuticals that impaired concentration, I smoked herb to concentrate. Medical necessity isn't "abuse". The myth of "amotivational syndrome" is backwards. The medical necessity motivates its users. To this day, a prehistoric medicinal herb still prevents paranoia because it's still relaxing. Dr Shelton will misdiagnose anybody to shift the blame away from himself, and he prefers to prey upon easy targets. His targets are mellow, docile, and passive. Kindness is mistaken for weakness. Dr. Shelton is a bully.

Every time prescribers refused to taper the pharmaceuticals, I was traumatized by involuntary admission to hospitals because of withdrawal symptoms. I finally tapered them myself, and I'm rising above the brutality inflicted upon me. I have a medicinal cannabis license now.

Dr. Shelton is guilty of insurance fraud and worse. The rationale for misdiagnosis is "insurance companies will have to be told they're paying for something". The Department of Public Health has been told about Dr. Shelton and he will hopefully be brought to justice very soon.

Withdrawing from tobacco again. There's no "mind over matter", tobacco is addictive. The withdrawal symptoms worsen until they taper or until use is resumed. When they taper, that doesn't guarantee the addiction won't resurface. "Willpower" makes no difference. Tobacco addicts don't have a choice.

The charlatan Joe Rogan encouraged "Dr" Phil, a known hatermonger. Unlicensed psychologist and bully "Dr" Phil has no idea the first medical necessity will never "impair concentration", he would recant his lies if he had difficulty concentrating. The first medical necessity will never "cause paranoia", NOBODY gets "paranoid" from a relaxing medicinal herb that'll always prevent paranoia because it'll always be relaxing. The myth of "amotivational syndrome" is backwards. The first medical necessity motivates its users. The safest and most effective medical necessity will never be "harmful", exploding people by broadcasting their problems

Using cartomancy to determine if I'd been cursed or not, the bad news is in.

Removed Jokers from deck.

Shuffled cards thinking about it and asking if I had been cursed.

Stacked cards until I got either an Ace or 10 in the stack until I had 3 stacks. There were 2 Aces. If it were zero Aces, that'd mean no curse. 2 out of 3 Aces meant a 66.6 percent chance of a curse.
